
EDITORIAL

In this year, 48 articles were submitted to the Thai Journal of Obstetrics and Gynaecology as shown in the table.

Sources	No. of articles submitted	No. of articles rejected
RTCOC members	3	0
Residents	33	5
Foreign physicians (Egypt, India, Germany)	12	4

The overall rejection rate is 18.75%.

This year, we start using the computer software to check all articles submitted to detect plagiarism. The ethical approval documents were requested and checked before the reviewing process.

Next year, manuscript submission checklist will be prepared for the authors. This checklist will guide the authors to complete all requirements for submission of the articles to the TJOG.

All changes have aimed to improve the quality of our journal to reach international standard as soon as possible. I would like to encourage the RTCOC members to submit your manuscripts to our journal.

Finally, happy new year 2015. A new year is the best time to make fresh new beginnings. May this year bring new happiness, new goals, new achievements and a lot of new inspirations on your life. Wishing you a year fully loaded with happiness.

Prof. Nares Sukcharoen MD.
